1 Training Manuals will help us for Rugby Coaching at various age groups. We can translate these into local languages for use by coaches.

2 We have been delighted with your services.

3 1. Provide a preferred reporting format &/or template. 2. Provide a link to which we may regularly share our photos. 3. Showcase a project on a regular basis in either your website, newsletter or social media platforms. 4. Link us with prospective rugby playing partner schools (could kick off an exchange program for our kids)! 5. Kick off rugby tourism among your programs more specifically identifying former/current rugby players willing/happy to volunteer their skill especially coaching, S&C & Physio. 6. Invite respective reps to annual fundraiser to speak. The testimonial could go a long way!

4 Glad to be part of your organization. We would like to intensifie this joining

5 The Atlas foundation has been one of our standout programmes for 2018. All the schools and the community bought into the programme and gave their full support. We made positive contributions with regard to providing kit and stipends but we need to look at nutrition as well. A lot of players do not have meals to go home too.

6 Nothing!

7 1. Consider providing a reporting format/tool to help facilitate timely reporting. 2. Develop a shared phot folder where we may upload photos on a monthly basis for your use. 3. Propose to focus/highlight one of your beneficiaries in your newsletter per month or quarter. 4. Consider extending an invitation to your annual fundraiser to a beneficiary. The testimonial could go a long way in supporting your efforts.

8 Very much at the start of our journey together so will maybe have something to say in a year's time

9 We think you are doing a great job.

10 We do not yet have enough experience of ATLAS to comment more. Perhaps it would be useful if each beneficiary NGO of ATLAS could discover more about the other organisations via a quarterly newsletter from ATLAS which summarises all the projects. This can help inspire us and the others to learn off what each are doing.

11 We would welcome support from Atlas to assist with publicity for (NGO), with a mention on your website and via your social media channels. We would encourage a representative from Atlas to visit to see our work first hand.

12 excellent document

13 The program created an employment opportunity for 2 full time coaches, that would have otherwise be part of the bad crime statistics. Also we are giving an opportunity for more than 2000 children to have something else than the option of turning to crime.

14 The only thing I would like to see is a platform for Atlas funded projects to interact. Maybe an annual Projects presentation / forum. I think there could be some good shared learning, Key Atlas funders may be interested in hearing news first hand and celebrating success is a huge motivator.

15 Of our £xxx target, (NGO) has raised £xxx with £xxx gratefully received from The Atlas Foundation. If its Trustees could consider another grant to help us reach our financial needs for our project, we would so appreciate it. For any questions, please contact (*withheld from public document*)

16 Atlas is doing a phenomenal job vetting, promoting, and supporting excellent initiatives around the globe. Our only wish is to host the Atlas staff to showcase the life-changing work they are empowering us to do.

## Q17: We also like to reinforce what we do well. If you have any thoughts on what we should continue to do well, please do let us know.

2 We get great support, encouragement and feedback - please keep this up!

3 1. Your regular updates on social media. 2. Understanding our donation requirements & working hard to match us accordingly e.g. jerseys for youth players & boots grant.

4 We think that your work is wonderful!

5 Your support is invaluable and we cannot fault you on your contribution. The monthly stipends we pay towards the coaches, are in all the cases the sole source of income, we are creating jobs and the coaches also benefited from up skilling and leadership opportunities. The players received rugby boots and through the Atlas foundation programme 8 players from the programme represented the Provincial team in 2018. In essence, your financial contribution are enabling players to perform and become leaders in their community and also assist in channeling their energy in playing sport and to abstain from engaging in gangsterism and drugs. Also, one of the benefits of the programme is that girls also started to play rugby. In 2019 we can put more effort into the programme to up skill and promote girls rugby in the schools. Our other regions are also aware of the Atlas programme and are very keen to join the Atlas family.

6 Showing great enthusiasm and proactive approach to all of our projects. Supporting with project exposure through ambassadors has been extremely valuable.

7 Your excellent at social media management & updates! Keep it up.

8 Great networks, really positive and empowering approach to partnering

9 The current reporting and monitoring system is good as it ensures the organisations' accountability (even though we are producing quarterly reports ourselves)

10 Your use of legends to promote the Atlas projects helps lend credibility. Your fundraising challenges and events seem very successful.

11 The project is excellent

12 I like the common sense, not overly admin heavy approach that Atlas takes to managing its project partners ... its a refreshing change to some other grant making organisations and means we can focus on delivering on the project objectives.

13 Thank you for recognising great initiatives such as what we're doing. We so hope you can join us for our partners' launch in November 2019.

14 Please continue to share great content on social media. It is inspiring and motivates us to continue doing the difficult work we do :)
